

# VIRTUAL STEAM ON THE RAILS

Join us for the second **VIRTUAL STEAM on the Rails** event with the Railroad Museum of Pennsylvania! This special **school program** is designed for students in grades K through 6 to learn about the role of STEAM (Science, Technology, Engineering, Arts and Math) in our daily lives.

Students can watch live demonstrations and programs through **Zoom** including how levers and pulleys work, and how a steam locomotive works. The program will be held over two days with four, 30-minute presentations each day.
